Table of Contents
Corrosion, Vol. 28, 1972

January

Critical Potential for Growth of Localized Corrosion of Stainless Steel in Chloride Media
Tsuguo Suzuki and Yoshiharu Kitamura 1

Contribution to the "Filming Amine" Theory: An Interpretation of Experimental Results
R. H. Hausler, L. A. Goeller, R. P. Zimmerman, and R. H. Rosenwald 7

Stress Corrosion Cracking of AISI 4340 Steel Foil in Aqueous Hydrochloric Acid Solutions. Effect of Ferric Ion
E. G. Haney, Paul Fugassi, and D. B. Christner 17

Corrosion of Nickel in Liquid Sodium
C. F. Cheng and W. E. Ruther 20

Technical Note: Corrosion of Nickel by Hydrogen Sulfide
N. W. Tideswell 23

An Analog Bridge Method for Differential-Capacitance Measurements During the Passivation of Stainless Steels in Halide Media
C. D. Kim and B. E. Wilde 26

Tribo-Ellipsometry: A New Technique to Study the Relationship of Repassivation Kinetics to Stress Corrosion
J. R. Ambrose and J. Kruger 30

Technical Note: Influence of Aging Time and Temperature on the Susceptibility of γ-Quenched U-5 wt% Nb Alloy to SCC
B. D. McLaughlin, L. L. Stephenson, and C. J. Miglionico 35

February

Hydrogen Sulfide Stress Corrosion Cracking of High Strength Steel Wire
H. E. Townsend, Jr. 39

Ion and Laser Microprobes Applied to the Measurement of Corrosion Produced Hydrogen on a Microscopic Scale
Hugh R. Gray 47

Technical Note: Morphology of Internal Oxidation in Cu-20 Mn Alloy
P. K. Panda, A. K. Lahiri, and T. Banerjee 55

Effects of Hydrogen on the Engineering Properties of MONEL Nickel-Copper Alloy K-500
J. A. Harris, R. C. Scarberry, and C. D. Stephens 57

Discussion of Technical Note: A Reference Electrode for Corrosion Studies in Aqueous Solutions at Temperatures to 289 C
O. L. Riggs, Jr. 63

Corrosion of Type 430 Stainless Steel: Effects of Mo-Pd and Other Addition Pairs
V. S. Agarwala and G. J. Biefer 64

March

Anodic Polarization Behavior of Fe-Si Alloys in Sulfuric Acid Solutions
Wesley B. Crow, James R. Myers, and J. V. Jeffreys 77

Technical Note: Interpretation of Fractographs of SCC in Hexagonal Metals
I. Aitchison and B. Cox 83

Stress Corrosion Crack Paths in Al-Zn-Mg Alloys
W. R. Middleton and R. N. Parkins 88

Effect of Chloride Ion Concentration on the Polarization Behavior of an Fe-25Ni Alloy
Dale O. Condit 95

Electrochemical Potentials of High Purity Metals in Sea Water
R. E. Groover, J. A. Smith, and T. J. Lennox, Jr. 101

Effect of Some Phosphoroorganic Compounds on the Corrosion Rate of Various Metals in Acid Solutions
B. Dus and Z. Szklarska-Smialowska 105

April

Improved Corrosion Resistance, Reliability, and Integrity of Cast Stainless Alloys
W. A. Luce, M. G. Fontana, and J. W. Cangi 115

Corrosion and Corrosion Product Release in Neutral Feedwater
E. G. Brush and W. L. Pearl 129

Electrochemical Behavior of Ti-Ni Alloys in Acidic Chloride Solutions
A. J. Sedriks, J. A. S. Green, and D. L. Novak 137

Synergistic Inhibition of Ferric Ion Corrosion During Chemical Cleaning of Metal Surfaces
Michael A. Streicher 143

Technical Note: Eliminating IR Drops from Potential Measurements
John A. Miles 149

Natural Conditions for Caustic Cracking of a Mild Steel
J. E. Reinoehl and W. E. Berry 151

May

Formation of Sodium Sulfate in Gas Turbine Combustors
Johann G. Tschinkel 161

Technical Note: Polarization and Photopotentials of Zinc Single Crystals in Na_2S
Dudley A. Chance and Ken Nobe 170

Autoradiographic Analysis of Microsegregation of Hydrogen in Metals
M. R. Louthan, Jr., D. E. Rawl, Jr. and R. T. Huntoon 172

Pitting of Molybdenum Bearing Austenitic Stainless Steel
R. J. Brigham 177

Discussion: On the So-Called Linear Polarization Method for Measurement of Corrosion Rates
Denny A. Jones 180

Electrochemical Study of Stress Corrosion Cracking of Ti 8-1-1 Alloy in NaCl Solutions
Fu-shiong Lin and R. F. Hochman 182

Effect of Initial Hydrogen Content of a Titanium Alloy on Susceptibility to Hot Salt Stress Corrosion
Hugh R. Gray 186

SCC of Ti-6Al-4V Foil by Methanol. Effect of Treatments with 2,4-Pentanedione and Its Metal Complexes
E. G. Haney and Paul Fugassi 189

The Separation of Corrosion and Stress Effects in Stress Corrosion: Low Alloy Steel in Hot Mixed Nitrate Solutions
F. H. Cocks and J. Bradspies 192

A Study of the Intergranular Cracking of U-7.5 wt% Nb-2.5 wt% Zr (Mulberry) Alloy in Aqueous Chloride Solutions
Stanley W. Zehr 196

June

Environmentally Induced Cracking of Zirconium Alloys
B. Cox 207

Chemical Analysis of the Liquid within a Propagating Stress Corrosion Crack in 70:30 Brass Immersed in Concentrated Ammonium Hydroxide
Henry Leidheiser, Jr. and Roy Kissinger 218

Corrosive Effects of Various Salt Mixtures Under Combustion Gas Atmospheres
Paul D. Miller, Horatio H. Krause, Janez Zupan, and Walter K. Boyd 222

Critical Species in the Transgranular Stress Corrosion Cracking of Titanium Alloys in Aqueous Solutions
J. A. S. Green and A. J. Sedriks 226

Technical Note: Hydrogen Embrittlement of 4340 Steel as a Result of Corrosion of Porous Electroplated Cadmium
John G. Rinker and Robert F. Hochman 231

Some Observations on the Stress Corrosion Characteristics of High Strength Aluminum Alloys in the Marine Environment
George A. Wacker and Huai-Pu Chu 233

July

Use of an Empirical Potential Shift Technique for Predicting Dezincification Rates

of $\alpha\beta$-Brasses in Chloride Media
E. E. Langenegger and
B. G. Callaghan 245
Pitting Corrosion of Sensitized Ferritic Stainless Steel
C. R. Rarey and A. H. Aronson 255
Cathodic Protection and Hydrogen in Stress Corrosion Cracking
C. F. Barth and A. R. Troiano 259
Interaction Between Vanadium in Gas Turbine Fuels and Sulfidation Attack
Norman S. Bornstein, Michael A. Descrescente and Hilton A. Roth ...264
Passivity of Type 304 Stainless Steel–Effect of Plastic Deformation
K. Elayaperumal, P. K. De
and J. Balachandra 269
The Mechanism of High Temperature Corrosion in Municipal Incinerators
Paul D. Miller, Horatio H. Krause, Dale A. Vaughan, and
Walter K. Boyd 274

August

A Critical Appraisal of Some Popular Laboratory Electrochemical Tests for Predicting the Localized Corrosion Resistance of Stainless Alloys in Sea Water
B. E. Wilde 283
Dissolution of Ti-6Al-4V at Cathodic Potentials in 5N HCl
E. L. Owen, R. C. May, F. H. Beck,
and M. G. Fontana 292
Technical Note: Boiling Water Corrosion Resistance of Superplastic Al-Zn Alloys with Selected Ternary Additions
David L. Dollar, James A. Clum,
and Ronald E. Miller 296
An Electrochemical Study of Heteropoly Molybdates as Cooling Water Corrosion Inhibitors
A. Weisstuch and C. E. Schell 299
Electrochemical Aspects of Stress Corrosion of Steels in Alkaline Solutions
G. J. Bignold 307
Stress Corrosion Cracking of Carbon Steel in Carbonate Solutions
J. M. Sutcliffe, R. R. Fessler,
W. K. Boyd, and R. N. Parkins 313

September

Chemistry of Grain Boundaries and Its Relation to Intergranular Corrosion of Austenitic Stainless Steel
A. Joshi and D. F. Stein 321
Potentiostatic Polarization of Inconel X-750
B. L. Trout and R. D. Daniels 331
Technical Note: Differentiating Stress Corrosion Cracking from Hydrogen Cracking of Ferritic 18-8 Stainless Steels
H. H. Uhlig and R. T. Newberg 337
The Effect of Some Electrolytes on the Stress Corrosion Cracking of AISI 4340 Steel
H. R. Baker and C. R. Singleterry ...340
Hydrogen Evolution on Copper in H_2SO_4 Containing Benzotriazole
Dan Altura and Ken Nobe 345
Technical Note: Influence of Prior Electrochemical History on the Propagation of Localized Corrosion
E. D. Verink, Jr., T. S. Lee, III,
and R. L. Cusumano 348
The Role of Hydrogen in the Mechanisms of Stress Corrosion Cracking of Austenitic Stainless Steels in Hot Chloride Media
B. E. Wilde and C. D. Kim 350

October

Editorial: Call for Papers
Mars G. Fontana 359
Effect of Oxygen on the Compatibility of Tantalum and Potassium
R. L. Klueh 360
Intergranular Embrittlement of Copper-Palladium Alloys in Salt Water
D. B. Ballard, L. H. Bennett
and L. J. Swartzendruber 368
The Effect of Oxide Thickness on the Hot Salt Stress Corrosion Susceptibility of Ti-6Al-4V
M. W. Mahoney and N. E. Paton 374
Effect of Temperature and State of Stress on Hydrogen Embrittlement of High Strength Steel
J. B. Greer, E. L. Von Rosenberg,
and J. Martinez 378
Inhibition of Stress Corrosion Cracking of AISI 4340 Steel in 10% Potassium Nitrate Solution at 100 C
H. R. Baker and C. R. Singleterry ...385
Influence of Sulfide Inclusions on the Pitting Corrosion of Steels
Z. Szklarska-Smialowska 388

November

The Dezincification of Alpha and Beta Brasses
Robert H. Heidersbach, Jr.
and Ellis D. Verink, Jr. 397
Technical Note: Influence of Microstructure on the Corrosion Behavior of Ti-2% Ni in Hot Acidic Chloride Solutions, with Particular Reference to Weld Regions
J. A. S. Green and P. S. Kotval 419
Analysis of Cathodic Protection Criteria
D. A. Jones 421
A Correlation of Phase Change with Stress Corrosion Fracture in Alpha-Brass
W. D. Sylwestrowicz 424
Effect of Temperature and Some Inhibitors on Stress Corrosion Cracking of Carbon Steels in Nitrate and Alkaline Solutions
Henry Mazille and Herbert H. Uhlig .427

December

A Capacitance-Resistance Study of Polybutadiene Coatings on Steel
Robert E. Touhsaent and
Henry Leidheiser, Jr. 435
Technical Note: A Two Layer Coating System for Use on Maraging Steels
S. Floreen and H. W. Hayden 441
Predicting Corrosion Rates with the Potentiostat
P. E. Morris and
R. C. Scarberry 444
Fractographic Aspects of the Stress Corrosion Cracking of Titanium in a Methanol/HCl Mixture
J. Spurrier and J. C. Scully 453

Alphabetical Subject Index
Corrosion, Vol. 28, 1972

A

2,4-pentanedione, effects on SCC of Ti-6Al-4V foil by methanol, May 189

$\alpha\beta$-brasses in chloride media, predicting dezincification rates, Jul 245

ACID

Chloride medium used in pitting of molybdenum bearing austenitic stainless steel, May 177

Effect of phosphoroorganic compounds on metal corrosion rate in, Mar 105

Hydrochloric, 5N, dissolution of Ti-6Al-4V at cathodic potentials in, Aug 292

Hydrochloric, aqueous, SCC of AISI steel foil in, effect of ferric ion, Jan 17

Hydrochloric, Type 430 ferritic stainless steels in, Feb 64

Sulfuric, containing benzotriazole, hydrogen evolution on copper in, Sept 345

Sulfuric, Fe-25Ni alloy in, Mar 95

Sulfuric, Fe-Si alloys in, anodic polarization behavior, Mar 77

Sulfuric, saturated with carbon disulfide, Feb 57

Sulfuric, steel, stainless, Type 304 in, Jan 26

Sulfuric, steel, stainless, Type 304 in hydrogen saturated, Jul 269

Sulfuric, with and without 0.5N NaCl, Type 430 ferritic stainless steels in, Feb 64

Acidizing, a stimulation technique, Oct 378

Addition pairs and Mo-Pd, effects on Type 430 stainless steel, Feb 64

Aging time, influence on susceptibility of γ-quenched U-5 wt % Nb alloy to SCC, Jan 35

Alkaline solutions, steels in, electrochemical aspects of SCC, Aug 307

Alpha and beta brasses, dezincification, Nov 397

Alpha-brass, correlation of phase change with stress corrosion fracture, Nov 424

ALUMINUM

7002-T6 in marine environment, Jun 233

7039-T64 in marine environment, Jun 233

X7106-T63 in marine environment, Jun 233

Electrochemical potential in sea water, Mar 101

SCC in marine environment, Jun 233

Zn alloys, superplastic, boiling water corrosion resistance, Aug 296

Zn-Mg alloys, crack paths, Mar 88

Ammonium hydroxide, SCC in 70:30 brass in, Jun 218

Ammonium ion role as an inhibitor, Jan 7

Analog bridge differential-capacitance measurements during stainless steel passivation in halide media, Jan 26

Analysis of cathodic protection criteria, Nov 421

Anode, macroscopic local, separated from cathode, Jan 1

Anodic dissolution at crack tip of Ti-8-1-1 alloy in NaCl, May 182

ANODIC POLARIZATION

30Cr-3Mo-Fe alloy in 1M NaCl, Aug 283

Carbon steel wire, increase in time to failure in H_2S, Feb 39

Fe-25Ni in 1N H_2SO_4 Mar 95

Fe-Si alloys in sulfuric acid solutions, Mar 77

Nickel in acidified NaCl solution, Apr 137

Steel in alkaline solutions, SCC, Aug 307

Steel, mild potentiostatic curves in NaOH solutions, Apr 151

Steel, stainless, AISI Type 430, Aug 283

Steel, stainless, Type 430 ferritic, measurements in H_2SO_4, Feb 64

Steel, stainless, Type 304 in hydrogen saturated 1N H_2SO_4, Jul 269

Titanium in acidified NaCl solution, Apr 137

Titanium-nickel alloys in acidified NaCl solution, Apr 137

Anodic potentials, relation between hydrogen permeation with pitting and brittle delayed failure under, Jul 259

Anodizing of Ti-6Al-4V, Oct 374

Arsenic addition to aqueous chloride solution, role as a hydrogen ion recombination poison, Jun 226

Autoradiographic analysis of microsegregation of hydrogen in metals, May 172

B

Bismuth, electrochemical potential in sea water, Mar 101

Boiling water reactor feedwater, Apr 129

Boiling water resistance of superplastic Al-Zn alloys, Aug 296

Brass, 70:30, SCC in concentrated ammonium hydroxide, Jun 218

Brasses, alpha and beta, dezincification, Nov 397

C

Cadmium, hydrogen embrittlement of 4340 steel as a result of corrosion of, Jun 231

Carbon disulfide, sulfuric acid saturated with, Feb 57

Carbonate solutions, SCC of carbon steel, Aug 313

Carburization, surface of cast stainless steel alloys, Apr 115

Cast stainless steel alloys, Apr 115

Cathode, separated from macroscopic local anode, Jan 1

CATHODIC POLARIZATION

Carbon steel wire, decrease in time to failure in H_2S, Feb 39

Fe-25Ni in 1N H_2SO_4, Mar 95

Nickel in acidified NaCl solution, Apr 137

Steel in alkaline solutions, SCC, Aug 307

Steel, stainless, Type 430 ferritic, measurements in H_2SO_4, Feb 64

Titanium in acidified NaCl solution, Apr 137

Titanium-nickel alloys in acidified NaCl solution, Apr 137

Cathodic protection criteria, Nov 421

Cathodic protection, role in SCC, Jul 259

Caustic cracking inhibition, in mild steel, Apr 151

Caustic cracking of a mild steel, Apr 151

CHLORIDE

Ions as critical species in transgranular SCC of titanium, Jun 226

Ion concentration effect on Fe-25Ni alloy polarization behavior, Mar 95

Ion concentration, sensitivity of interfacial differential capacitance of Type 304 stainless steel in sulfuric acid to, Jan 26

Media, stainless steel in, localized corrosion, Jan 1

Predicting dezincification rates of $\alpha\beta$-brasses, Jul 245

Salts, addition to mixed sulfates, Jun 222

CHROMIUM

30Cr-3Mo-Fe during anodic polarization in 1M NaCl, Aug 283

Depleted zones in austenitic stainless steel, Sept 321

Depletion theory for intergranular resistance, Jul 255

Cleaning of metal surfaces, synergistic inhibition of ferric ion corrosion, Apr 143

Coating system for use on maraging steels, two layer, Dec 441

Coatings, polybutadiene, on steel, a capacitance-resistance study, Dec 435

Combustion gas atmospheres, various salt mixtures under, Jun 222

Combustors, gas turbine, sodium sulfate formation, May 161

COPPER

Cu-20Mn alloy, morphology of internal oxidation, Feb 55

Hydrogen evolution in H_2SO_4 containing benzotriazole, Sept 345
Palladium, intergranular embrittlement in salt water, Oct 368
Pourbaix diagram, immersed in 15N ammonium hydroxide, Jun 218

Corrosion behavior diagram, Dec 444
Corrosive gases, SO_2, SO_3, HCl, and Cl_2, attack by in municipal incinerators, Jul 274
Crack paths in Al-Zn-Mg alloys, Mar 88
Crack tips, hydrogen distribution, Feb 47
Cracking of zirconium alloys, environmentally induced, Jun 207
Cracking, titanium alloys, Feb 47
Cracks in MONEL nickel-copper alloy K-500, Feb 57
Crevice, steel, stainless, in 0.5N NaCl, Jan 1
Crystal, nickel, single, Jan 23
Crystals, zinc, single, in Na_2S, polarization and photopotentials, May 170

D

Dezincification of alpha and beta brasses, Nov 397
Dezincification rates of $\alpha\beta$-brasses in chloride media, Jul 245
Differential-capacitance measurements during stainless steel passivation in halide media, Jan 26
Dissolution of Ti-6Al-4V at cathodic potentials in 5N HCl, Aug 292

E

EBR-11 reactor, nickel corrosion in liquid sodium, Jan 20
Electrochemical aspects of SCC of steels in alkaline solutions, Aug 307
Electrochemical behavior, Ti-Ni alloys, acidic chloride solutions, Apr 137
Electrochemical history influence on localized corrosion propagation, Sept 348
Electrochemical potentials of high purity metals in sea water, Mar 101
Electrochemical study of heteropoly molybdates, Aug 299
Electrode, reference, for aqueous solutions studies to 289 C, Feb 63
Electrolytes, effect on SCC of AISI 4340 steel, Sept 340
Embrittlement, hot salt stress corrosion, role of hydrogen, Feb 47
Embrittlement, titanium alloys, Feb 47
Empirical potential shift technique for predicting dezincification rates of $\alpha\beta$-brasses in chloride media, Jul 245

F

Ferric chloride, pitting of stainless steel in, Jul 255
Ferric ion corrosion, inhibition, Apr 143
Film diffusion control mechanism, H_2S corrosion, Jan 13
Film rupture simulation, Jan 30
"Filming Amine" theory, interpretation of experimental results, Jan 7
Fractographic aspects of titanium SCC in methanol/HCl mixture, Dec 453
Fractographic observations of copper-palladium, Oct 368
Fractographs of SCC in hexagonal metals, Mar 83
Fractography of zirconium and zirconium alloy, Jun 207
Fracture in alpha-brass, correlation of phase change with stress corrosion, Nov 424

G

Gas turbine combustors, formation of sodium sulfate, May 161
Gas turbine fuels, vanadium and sulfidation attack, Jul 264
Grain boundary relation to intergranular corrosion of austenitic stainless steel, Sept 321

H

Halide media, stainless steel passivation in, measurements, Jan 26
Heteropoly molybdates as cooling water inhibitors, electrochemical study, Aug 299
Hexagonal metals, interpretation of fractographs of SCC in, Mar 83

HYDROGEN
Absorbed content, sensitivity of interfacial differential capacitance of Type 304 stainless steel in sulfuric acid to, Jan 26
Absorption in MONEL nickel-copper alloy K-500, Feb 57
Cathodically charged, effects on mechanical properties of MONEL nickel-copper alloy K-500, Feb 57
Concentration profile, in titanium corroded and fracture surfaces, Feb 47
Correlation of availability for embrittlement with SCC, Jul 259
Corrosion produced, measurement on a microscopic scale by ion and laser microprobes, Feb 47
Crack tip distribution, Feb 47
Cracking differentiated from SCC in ferritic 18-8 stainless steels, Sept 337
Embrittlement, mechanism of failure, Feb 39
Embrittlement, MONEL nickel-copper alloy K-500, Feb 57
Embrittlement, of 4340 steel as a result of porous electroplated cadmium corrosion, Jun 231
Embrittlement of high strength steel, effects of temperature and stress, Oct 378
Evolution corrosion, inhibition, Apr 143
Evolution on copper in H_2SO_4 containing benzotriazole, Sept 345
Microsegregation in metals, autoradiographic analysis, May 172
MONEL nickel-copper alloy K-500, effects on, Feb 57
Notch roots distribution, Feb 47
Role in SCC mechanism of austenitic stainless steels in hot chloride media, Sept 350
SCC, role of, Jul 259
Sulfide, corrosion of mild steel, Jan 12
Sulfide, mechanism of corrosion, Jan 7
Sulfide, nickel corrosion, Jan 23
Sulfide SCC of high strength steel wire, Feb 39
Titanium alloy, effect of initial content on hot salt stress corrosion, May 186
Transgranular SCC of titanium, critical species, Jun 226

I

Incinerators, municipal, fireside corrosion, Jun 222
Incinerators, municipal, mechanism in high temperature corrosion, Jul 274
Inconel X-750 in acid solution, Sept 331
Inhibition for hydrogen evolution corrosion, Apr 143
Inhibition, synergistic, of ferric ion corrosion during chemical cleaning of metal surfaces, Apr 143
Inhibitor effects on SCC of carbon steel in nitrate and alkaline solutions, Nov 427
Inhibitors, cooling water, electrochemical study of heteropoly molybdates, Aug 299
Inhibitors, effect on ferric ion corrosion, Apr 143
Intergranular attack of tantalum by potassium, Oct 360
Intergranular corrosion, relation to grain boundary chemistry in austenitic stainless steel, Sept 321
Intergranular cracking of U-7.5 wt % Nb-2.5 wt % Zr (Mulberry) alloy in aqueous chloride solutions, May 196
Intergranular embrittlement of copper-palladium alloys in salt water, Oct 368
Intergranular fracture of zirconium in methanol-iodine, Jun 207
Ion microprobe, measurement of corrosion produced hydrogen on a microscopic scale, Feb 47
IR drops, eliminating from potential measurements, Apr 149

IRON
Effect of phosphoroorganic compounds in acid solutions, Mar 105
Electrochemical potential in sea water, Mar 102
Fe-25Ni alloy, chloride ion concentration effect on polarization behavior, Mar 95
Fe-Si alloys in sulfuric acid solutions, anodic polarization behavior, Mar 77
Ferric ion corrosion, synergistic inhibition, Apr 143
Ferric ion effect on SCC of AISI 4340 steel foil in aqueous hydrochloric acid solutions, Jan 17
Sulfide, surface formation, Jan 7

J

K

K-500, MONEL nickel-copper alloy, hydrogen effects on, Feb 57

L

Langmuir adsorption behavior, Sept 345
Laser microprobe, measurement of corrosion produced hydrogen on a microscopic scale, Feb 47
Lead, effect of phosphoroorganic compounds in acid solutions, Mar 105
Linear polarization method for corrosion rate measurement, May 180

Localized corrosion of stainless steel in chloride media, Jan 1
Localized corrosion propagation, influence of electrochemical history, Sept 348
Localized corrosion resistance of stainless steel alloys in sea water, Aug 283
Loop experiments, nickel in liquid sodium, Jan 20

M

Maraging steels, two layer coating system, Dec 441
Marine environment, SCC of high strength aluminum alloys in, Jun 233
Martensite, strain-induced bcc, formation from metastable austenitic stainless cold worked steel, Jul 269
Measurement of corrosion produced hydrogen on a microscopic scale by ion and laser microprobes, Feb 47
Measurement of corrosion rates, linear polarization method, May 180

MECHANISM
- Al-Zn-Mg alloys SCC, Mar 88
- Dezincification of alpha and beta brasses, Nov 397
- Film diffusion control, H_2S corrosion, Jan 13
- H_2S corrosion, Jan 7
- High temperature corrosion in municipal incinerators, Jul 274
- Hydrogen embrittlement and SCC, Jul 259
- Hydrogen embrittlement method of failure, Feb 39
- Hydrogen evolution on copper in H_2SO_4 containing benzotriazole, Sept 345
- Intergranular cracking of U-7.5 wt % Nb-2.5 wt % Zr (Mulberry) alloy in aqueous chloride solutions, May 196
- Intergranular, embrittlement of copper-palladium alloys in salt water, Oct 368
- Intergranular failure of zirconium alloys, Jun 207
- Internal adsorption, Feb 39
- Liquid sodium, nickel corrosion in, Jan 20
- Nickel in liquid sodium, Jan 20
- Pitting resistance of sensitized ferritic stainless steel, Jul 255
- Plastic deformation of Type 304 stainless steel, Jul 269
- SCC of austenitic stainless steels in hot chloride media, role of hydrogen, Sept 350
- SCC of carbon steel in carbonate solutions, Aug 313
- Sodium sulfate formation in gas turbine combustors, May 161
- Steel, AISI 4340, SCC inhibition, Oct 385
- Steel, carbon, SCC in nitrate and alkaline solutions, effect of temperature and inhibitors, Nov 427
- Steel, stainless, intergranular corrosion, Sept 321
- Strain assisted anodic dissolution of stainless steels in hot chloride media, Sept 350
- Stress corrosion fracture in alpha-brass, correlation of phase change, Nov 424
- Titanium alloys, role of hydrogen, Feb 47
- Titanium SCC in methanol/HCl, Dec 453
- Transgranular failure of zirconium alloys, Jun 207
- Transgranular SCC of titanium, critical species, Jun 226
- Tribo-ellipsometry relevance to SCC, Jan 34

Metal complexes of 2,4-pentanedione, SCC of Ti-6Al-4V foil by methanol, May 189
Metal surface cleaning, synergistic inhibition of ferric ion corrosion during, Apr 143

METALS, EXCEPTIONAL
- Electrochemical potential in sea water, Mar 102
- Mo-Pd and other addition pairs, effects on Type 430 stainless steel, Feb 64
- Mo,V, and W combined with Pd, Ge, and Re Type 430 ferritic stainless steels containing additional pairs of, Feb 64
- Molybdenum bearing austenitic stainless steel, pitting of, May 177
- Nb, U-5 wt %, γ-quenched, influence of time and temperature on susceptibility to SCC, Jan 35
- U-7.5 wt % Nb-2.5 wt % Zr (Mulberry) alloy intergranular cracking in aqueous chloride solutions, May 196
- Vanadium in gas turbine fuels, sulfidation attack, Jul 264
- Zirconium alloys, environmentally induced cracking, Jun 207
- Zirconium alloys, SCC and liquid metal embrittlement, Mar 83

Metals, high purity, electrochemical potentials in sea water, Mar 101
Metals, hydrogen microsegregation, autoradiographic analysis, May, 172
Methanol, SCC of Ti-6Al-4V foil by, May 189
Mg-Al-Zn alloys, crack paths, Mar 88
Microprobes, ion and laser, measurement of corrosion produced hydrogen on a microscopic scale, Feb 47
Microsegregation of hydrogen in metals, autoradiographic analysis, May 172
Morphology, internal oxidation in Cu-20Mn alloy, Feb 55
Mulberry alloy in aqueous chloride solutions, intergranular cracking, May 196

N

NICKEL
- Alkali sulfates corrosive to, Jul 264
- Crystal, single, Jan 23
- Effect of phosphoroorganic compounds in acid solutions, Mar 105
- Fe-25Ni alloy, effect of chloride ion concentration on polarization behavior, Mar 95
- Hydrogen sulfide corrosion, Jan 23
- Inconel X-750 in acid solution, Sept 331
- Liquid sodium, corrosion in, Jan 20
- MONEL, copper alloy, hydrogen effects on, Feb 57
- Polycrystalline, Jan 23
- Sodium hydroxide, Jan 26
- Sulfide scales, chemical composition and crystallographic orientation, Jan 23
- Ti-2% Ni in hot acidic chloride, influence of microstructure, Nov 419
- Ti-Ni alloys in acidic chloride solutions, electrochemical behavior, Apr 137

Nitrate solutions, hot mixed, low alloy steel in, May 192
Notch roots, hydrogen distribution, Feb 47

O

OXYGEN
- Dissolved in water, effects on steel and copper, Apr 129
- Effect on compatibility of tantalum and potassium, Oct 360
- Oxidation, internal, in Cu-20 Mn alloy, morphology of, Feb 55
- Oxide thickness effect on hot salt SCC of Ti-6Al-4V, Oct 374
- Sodium, effect on corrosion rate in, Jan 20
- Steel, hydrogen permeation and brittle failure in, Jul 259

P

Palladium, copper, intergranular embrittlement in salt water, Oct 368
Passivation of stainless steels in halide media, measurements, Jan 26
Peening, inhibition of SCC, May 192

pH
- Change during crack propagation in SCC of 70:30 brass in concentrated ammonium hydroxide, Jun 218
- Fe-Si alloys in sulfuric acid solutions, anodic polarization behavior, effects of, Mar 77
- Neutral, used to study boiling water reactor feedwater effects on steel and copper, Apr 129
- SCC of AISI 4340 steel, dependence on, Sept 340
- Phosphoroorganic compounds, effect on metal corrosion rate in acid solutions, Mar 105

PITTING
- 30Cr-3Mo-Fe alloy immunity during polarization in 1M NaCl, Aug 283
- Hydrogen permeation relation under anodic potentials, Jul 259
- Steel, influence of sulfide inclusions, Oct 388
- Steel, stainless, ferritic, resistance to, Jul 255
- Steel, stainless, in 0.5N NaCl solution at 70 C, Jan 1
- Steel, stainless, molybdenum bearing austenitic, May 177

Plastic deformation, passivity of Type 304 stainless steel, Jul 269
Polarization behavior of Fe-25Ni alloy, effect of chloride ion concentration, Mar 95
